

Pooja

Little Pooja lives with her father and mother in a small village in Odisha. Her mother lost eye sight due to an injury at work and now her father is the sole bread earner for the family. Her father was initially very concerned for her education due to the family's poor financial condition and for the fact that the nearest school was miles away.

Hope arrived in the form of the Mission Education centre that was opened in Pooja's village. Her father wasted no time in getting her enrolled. Pooja studies in standard 4 now and is always thankful that she no longer has to dream of an education. She can now go to school every day. Her teachers in the Mission Education centre are very attentive and encourage her to follow her dreams. She wants to become a doctor when she grows up and help people like her mother see this beautiful world!
