

## MY SHIKSHA STORY

Supriya, Mission Education Centre – CLCC Karanjkur, Jharkhand

"My mother wanted to become a teacher but because of her family's poor financial status, she never got an opportunity. In fact, she has never stepped in a school in her entire life. Today, despite of all the challenges we are surrounded with, she ensures that we never give up on our education.

My parents work on fields, construction sites, shops - wherever they get an opportunity. My mother works as a house help to make our ends meet. I haven't told her yet but I want to live her dream. I want to become a teacher. Later in life I want to open a school where mothers like mine can get to study."
